

OMEGA NINE

CHILD ENRICHMENT CENTER

In the coming months, California is expecting to see an increase in new babies being born due to the Shelter-at-Home events. Along with these growing families there will be an increase in the need for Infant and Toddler care as parents begin returning to work.

Omega Nine Child Enrichment Center is embracing this new normal by offering an extended enrollment period where you are able to reserve a spot in our center for up to 6 months in advance.

The enrollment fee to save your place will continue to be discounted at the current savings of 75% off. Please stop in for a tour and get more details on reserving a spot for early enrollment.
